

15th February 2023

Project reference Capital/404132/CWA/Picketlaw

Our alliance partner, Caledonia Water Alliance will be carrying out this work on our behalf.

Taking care of your water supply in Newton Mearns

What we are doing

We are taking care of the water services in your community by upgrading the water network to ensure you continue to enjoy clear, fresh drinking water, and reduce the chance of pipes bursting.

When are we doing it

Work to install a new water main, will start on Mearns Road at the junction of Broomvale Drive, on Monday 6th March 2023 and will move, on a rolling programme along Mearns Road, work will also take in from Kinnaird Avenue to Broomburn Drive, before completing the works at the roundabout leading into A726. This programme of work is expected to be completed in April 2024.

What happens next

- Details of all junction closures and road closures can be found over the page.
- We may need to turn off your water supply. If we do, we will send you further information at least 48 hours in advance, detailing the dates and times that your supply will be affected and what to do.
- During the works you may experience a change in water pressure and/or discoloured water. If this happens don't be alarmed, turn on the cold water tap in your kitchen, let the water flow slowly until it runs clear.
- There will be roadworks during the dates above. This will include the use of temporary traffic lights, diversions and some access and parking restrictions. Please follow all signs put in place.
- At the end of this project customers who normally receive their water via the treatment works at Eaglesham will be switched over to Drumoyhill. As a result, customers will be supplied with water which has been chloraminated rather than their usual chlorinated supply.

Advanced signage will be in place

There will be rolling junction closures along Mearns Road

Mearns Road at Mearnskirk will be closed during the school summer holidays

Mearns Road from Langlee Road will be closed on a rolling programme

Thank you for your patience and understanding while we complete this essential work. We apologies for any inconvenience these works may cause.

Yours sincerely Joanne Craig Customer Manager
