OFFICIAL

Dear Mr Nurse,

Thank you for your follow up enquiry regarding the traffic calming measures on Mearns Road adjacent to the Co-op store.

The Council has been reviewing the operation of the existing build-outs, taking account of feedback received from local residents, elected members and the Community Council. As part of this process, a range of potential options has been considered, including modifications to the existing layout and alternative measures to improve pedestrian safety.

A number of technical, operational and road safety considerations have been identified, and these continue to be assessed. The review has therefore not yet reached a final conclusion and no decision has been taken at this stage on any future changes to the current arrangements.

We appreciate the interest that local residents and the Community Council have taken in this matter and recognise the concerns that have been raised. We anticipate that the ongoing assessment will be completed within the next four weeks and once concluded, we will provide a further update outlining the outcome of the review together with any proposed next steps.

Kind regards

Cheryl Marley
